KONDREDDY GARI CHAITHANYA

lathareddy0505@gmail.com | +91-9346781531 | Bangalore, India

PROFILE

GCP Data Engineer with 1.10 years of experience. Ability to handle multiple tasks and prioritize them accordingly. Experienced in developing data pipelines, data processing, and cloud-based data solutions using GCP and Big Data technologies.

TECHNOLOGY

Big Data: Hadoop, HDFS, Hive, Apache Spark, Pandas, NumPy, Matplotlib, Apache Kafka, Sqoop, Delta Lake, PySpark, Cloudera.

Cloud: Google Cloud Platform (GCP), BigQuery, Pub/Sub, Dataflow, Spanner.

AI & Machine Learning: AI, Machine Learning, LLM, LangChain,LangGraph,Claude, Anaconda, ChatGPT, Jupyter Notebook.

Data Engineering: ETL/ELT, CDC, Data Pipelines, Delta Lake.

DATABASE AND TOOLS

Oracle, MySQL, Teradata, DBT (Data Build Tool), Visual Studio Code, WinSCP, Autosys, Apache Airflow, Terraform, Jenkins,CICD, Git, GitHub.

PROGRAMMING & QUERY LANGUAGES

Python, SQL, Shell Scripting.

WORK EXPERIENCE

Cognizant – GCP Data Engineer **January 2025 – Present**

Project: GRS-Reservation
Client: IHG (InterContinental Hotels Group)
Duration: July 2025 – Present
Location: Bangalore
Role: Development and Support

Technology and Tools: Google Cloud BigQuery, Pub/Sub, Dataflow, Spanner, Airflow, Oracle, Teradata, ETL, DBT, Terraform,AI Agents, Shell Scripting, CDC, Delta Lake, Jenkins,Jira,Confluence, GitHub.

Roles and Responsibilities:

- Gathered requirements from vendors and conducted feasibility studies.
- Created Dataflow jobs to read encoded JSON messages from Pub/Sub and write them to BigQuery.
- Developed transformation queries to generate projections used by downstream applications.
- Developed scripts to read and write data between existing RDBMS systems, Spanner, and BigQuery for historical and incremental loads.
- Worked on query performance enhancement.
- Created Airflow applications to schedule jobs.

Project: Scooby Data Doo
Client: IHG (InterContinental Hotels Group)
Duration: January 2025 – July 2025
Location: Bangalore
Role: Development and Support

Technology and Tools: Hadoop, Spark, Python, PySpark, MySQL, GCP, GitHub, ETL/ELT, Delta Lake,CICD, Airflow, VS Code, AI Agents, Sqoop,Shell Scripting,winSCP,PuTTy,Jira,Confluence.

Roles and Responsibilities:

- Gathered requirements from vendors and conducted feasibility studies.
- Created Spark jobs to read and write data between Big Data systems and RDBMS for historical and incremental loads.
- Developed Scala scripts for data movement from Hive to Phoenix.
- Worked on performance enhancement of queries and Spark jobs.
- Created Airflow applications to schedule Spark jobs.
- Gathered and analyzed business requirements and translated them into machine learning solutions.

- Prepared, cleaned, transformed, and validated datasets for machine learning model development.
- Developed and evaluated machine learning models using appropriate algorithms and performance metrics.
- Performed feature engineering and data preprocessing to improve model performance.
- Built Python-based workflows for data preparation, model training, testing, and evaluation.
- Worked with LLM-based solutions and AI tools such as Claude and ChatGPT.
- Monitored model performance and identified opportunities for model tuning and improvement.
- Collaborated with data engineering and development teams to integrate ML solutions with data pipelines and cloud platforms.
- Documented model development, experiments, results, and technical processes.
- Followed version control, testing, deployment, and CI/CD practices for reliable ML workflows.

EDUCATION & QUALIFICATION

Exam / Qualification	**Year**	**CGPA / Score**
B.Tech (Data Science) Sreenivasa Institute of Technology and Management Studies, Chittoor	2025	8.85
12th – Mangalakara Junior College, Puttaparthi	2021	9.1
10th – Z.P. Girls High School, Gorantla	2019	9.3
